

Restoration of the Church

At a vestry meeting, held on the 28th of March, it was proposed to restore the parish church by repairing the outward walls, erecting a new roof, and re-seating the interior, at a probable cost of £700; the present venerable edifice, containing some fine monuments, being in a deplorable state of dilapidation, and inadequate to the wants of the parishioners. The following gentlemen have formed themselves into a committee for the purpose of carrying out this desirable object:-

The incumbent, Rev. P. S. De Prez; Mr. William Day and Mr. Rogers, churchwardens; and Messrs. G. and H. Parham, of Norrington.

We understand that rather more than £200 have been already subscribed.
