

Patents and Their Inventors

A patent is an official document given to an inventor by a government. This document generally gives inventors the right to stop anyone else from copying, using, distributing or selling the invention without their permission.

Year	Date	Surname	Given Names	Abode	Occupation	Description of Invention and Notes
1789	27-Aug	Boorn	Moses	Barford St. Martin		Machine or engine for sowing all sorts of corn or grain in drills or rows, which will sow or plant any number of drills or rows, from three to thirteen or upwards (according to the width of the machine), at any distance from each other etc.
