## Parminter's Patent

(Agricultural Flyer)

Mr D Coombes of Manor Farm, Dinton 1913 was one of 13 testimonials from farmers for an agricultural flyer for Parmiter's Patent Expanding Horse Drawn Rake which was a hoe/rake type farm implement for breaking up field soil after ploughing. It appears that the horse drawn farm implement was introduced around 1887 & the testimonials from the farmers printed on the leaflet vary from 1895 to 1913.
