

## Meeting About Proposed New Railway

### Proposed New Railway

A very influential meeting was held at Malmesbury on Tuesday, to promote the construction of a railway between Dauntsey, on the Great Western, and that town. The cost of the undertaking is estimated at £60,000 and of this amount the Great Western Railway Company will subscribe one-half. It will also guarantee 2 ½ per cent on the locally subscribes capital, and will work the line at 50 per cent of the gross receipts.
