

## Tips

### What Do I Do ...

#### To Make Sure of Vegetables for My Family?

I dig early in the year and leave the ground rough so that frost may act on it. If I cannot get manure I dig in leaves or any vegetable or animal matter. I give up any ground I can spare for the purpose. I give up my evenings and Saturday afternoons to work on my garden and to increase its output. I do my best to prevent the ravages of all insect pests. ... I remember that I, too, can DIG FOR VICTORY
