N.B. There has been no cattle on the above ground since the 30th October last, and it was then very full of grass.

Eight ricks of prime new and old meadow hay, also a large quantity of wheat, oat, barley, and bean straw, with about 40 or 50 tons of mangel wurzel, to be consumed on the premises.

The hay may be removed (arrangements having been accordingly made)

The farm is situated adjoining the Wilts and Berks and Kennett and Avon Canals, and within two miles of Melksham Railway Station, and the executors will be willing to treat with purchasers to haul any of the hay to either of the Canals or Stations above named.

The capital young cart horses, implements of the farm, dairy utensils etc., will be sold some time previous to Lady Day, of which due notice will be given.
