

Lord Weymouth's Grammar School

It is with much pleasure we note the very successful close of the school career of Mr St. John Hewitt, jun., of Upton Lovell, who since Michaelmas last has been Captain of Lord Weymouth's Grammar School. We have had to record on many previous occasions his scholastic distinctions, including among others two sectional first classes at the Oxford Senior Local Examinations; and we are sure our readers will be glad to learn that Mr Hewitt, exclusively educated in Warminster, first at Miss Wilkins' excellent preparatory school, and afterwards for eight and a half years at our Grammar School, has been fortunate enough to win, by open competition against all comers under twenty years of age, entrance to the Indian Civil Engineering College, Cooper's Hill; an honour gained for the second time by Warminster School, first by Mr Way, who is now in India as a Civil Engineer, under Government, and the second time, now, by Mr Hewitt. We congratulate our school, which aims high, and attains what it aims, on its success.
