

## Annual School Festival

Lady Herbert of Lea gave her accustomed treat to the children of the various schools connected with the town, the inmates of the Union Workhouse, and others; in the grounds of Wilton House, on Tuesday afternoon last.

The weather was most propitious, and the company very numerous. Tea, cakes and fruit etc. were most bountifully provided for the juveniles, and by them, we doubt not, most thoroughly enjoyed.

The games and the amusements were well contested, numerous prizes of various articles of clothing and money being given.

The band played admirable music and dancing, cricket and other sports were continued until 9'oclock, when some Montgolfier air balloons were let off, and rose high in the air, amidst the shout of spectators, who, at the close of the proceedings, gave good hearty English cheers for the Queen, Lady Herbert, Earl of Pembroke and other members of the Herbert family.

The party then left the grounds, having a most pleasurable afternoon and evening.
