

**TO THE WORSHIPFUL THE JUSTICES OF THE PEACE
FOR THE COUNTY OF WILTS.**

MY LORDS AND GENTLEMEN

THE SURVEYORSHIP of the county of Wilts., having been declared vacant, I beg to offer myself as a candidate for the appointment, and respectfully solicit your votes and interest.

The testimonials and commendations which I hope to have the honor to lay before you will, I feel assured, be considered ample grounds for this application, more especially so, when you are informed of my extensive practical experience in Engineering and Architectural Construction, with a perfect knowledge of the "Steam Engine," which has always been under the guidance of science and sound theory.

I take the liberty of mentioning that I have devoted much time to the public service, in designing and in carrying out of extensive works and of sanitary improvements, though I have no right to suppose that this should weigh with you on the present occasion.

With these views, my Lords and Gentlemen, I ask your special attention, hoping to acquire your confidence.

I have the honor to subscribe myself
Your faithful Servant
FREDERICK HAYNES
Engineer and Surveyor to the Wilton Local Board of Health

Wilton, 15th June, 1858.

Salisbury & Winchester Journal, and General Advertiser, Saturday June 26, 1858, Page 1 Col. 2.
