

Sheep dipping

SHEEP DIPPING

JOSEPH ROBINSON takes this opportunity of thanking his Friends and those Gentlemen who have so kindly supported him for the last three years, and to inform them, that his **DIPPING APPARATUS** is now at their service.

To dip the Lambs one or two weeks after the ewes are shorn will keep the Fly from them, and destroy the tick in both.

All orders sent to the Bell Inn, Wylde, will meet with immediate attention.

Salisbury and Winchester Journal, 20 June 1846
