P R E F A C E .

THIS volume, the fourteenth of the series, contains the concluding portion of the Marriages at St. Edmund's, Salisbury, from 31 March 1741 to the end of June 1837; and the Marriages of Stratford-sub-Castle from 1654 to 1837.

In the printing of these, the Editors have been without the valuable help of Mr. Thomas H. Baker, who died in January last. The assistance given by Mr. Baker to this work has been of the greatest importance, commencing with the Marriage Registers of Mere, Kingston Deverill and Monkton Deverill in volume I, and ending only with the last volume which contained the first part of the Marriages at St. Edmund's. But merely to state this does not by any means represent all the Editors owe to him, for he was always ready to help in any way; he willingly placed his large store of antiquarian knowledge at the Editors' disposal, and gave his heartiest support and assistance to the work. His death is a very great loss, and his assistance and encouragement will be difficult to replace.

It will be observed by the note on page 113 that the Register of St. Edmund's is deficient in regard to Marriages from October 1786 to July 1794—a lapse of close upon eight years, in the 278 years from its commencement to the end of June 1837; but fortunately this deficiency is made good owing to the preservation of a set of stamped and signed sheets covering the period. These stamped sheets also cover the three years before the deficiency, and the entries in the Registers have been carefully collated with them. With this volume the printing of the Marriages in all the parishes at Salisbury to the end of 1812 is completed; those of St. Edmund's being brought down to 30 June 1837, when civil registration came into force.

The Editors desire to thank the Rev. C. S. James, the late Principal of Salisbury Theological College, and Mr. James Parsons, the clerk of St. Edmund's, for their valuable help in collating the transcript; and the Rev. Canon Morrice and the Rev. W. H. Cook for permission to print the Marriage Registers of their respective Parishes.

It should be remembered that previous to 1752 the year was usually calculated as beginning on the 25th of March, instead of the 1st of January, so that a marriage taking place on, say, 20th February 1625, would be on that date in 1626, according to our reckoning; but as the civil and ecclesiastical year were both used, this is sometimes expressed by 20th February 162⁵.

In all cases where the marriage is stated to have taken place by licence, that fact is recorded, as the searcher thereby knows that further information as to the age, parentage and vocation of the parties is probably recoverable from the Allegations in the Archdeaconry or other office from which the Licence issued.

It might be well to remind the reader that these printed abstracts of the Registers are not legal "evidence". For certificates, application must be made to the local clergy.
